

Guest Room Millwork and Casegoods Specialists

Reduce cost, minimize risk, and keep your project on schedule.

Are you undertaking a guest room refresh, renovation, or starting from scratch?

At EIS Hospitality, we specialize in customizing and simplifying your project's millwork and casegoods through our multilayered understanding of sourcing for the hospitality industry.

FROM CONCEPT TO ROOM TYPES TO MODULES

Guest room millwork projects present their own unique set of challenges that can only be overcome by experienced millwork professionals. Typically, design concepts are presented and expanded to different room types. The final, crucial step is the millwork professional's ability to modularize each room to gain efficiency and deliver a cost-effective solution.

As a premier hospitality group devoted to serving the hotel industry, we excel at customizing our guest room program to achieve this modularity while maintaining design intent. The result is a smooth process for all project stakeholders from initial concept through installation. We simplify the complicated.

EXPERIENCE UNMATCHED SERVICE

Partnering with EIS Hospitality, you can expect experienced and dedicated project managers, quality control experts, and comprehensive execution plans.
